Colors shown are close to actual finishes, however, due to the imitations of printing processes, slight variations may exist. Please contact Century Metals for actual color chips before ordering.

COLOR SELECTIONS FLUROPON® METAL COATINGS

FLUROPON® 70% PVDF COATINGS

Sherwin-Williams Fluoropon® is a two-coat system that delivers outstanding durability and color retention.

COMPOSITION

All coatings in the Fluoropon family are a fluoropolymer product containing 70% polyvinylidene fluoride (PVDF) resins.

DURABILITY

Formulated to meet the industry's highest standards including AAMA 2605, Fluoropon coatings continually exceed performance needs while maintaining color and gloss, flexibility, formability, extreme weather performance and graffiti-resistance for years to come. Fluoropon coatings resist ultraviolet rays, dirt and stains, chalk and fade, chemical degradation.

END USES

Durability makes Fluoropon 70% PVDF coatings ideal for exterior applications including metal roofing, wall panels, soffits, fascia, entry and garage doors.

FLUROPON SOLAR REFLECTANCE

Fluoropon Solar Reflective (SR) coatings have the largest color palette with the highest SR values in the industry. They also help keep buildings cool, reduce energy consumption and mitigate urban heat island effect. So you can lower expenses without sacrificing design.
